MASTERY OF THE WHEEL

Commissioned by the luminaries of the universal cognisphere, the metalogical wheel charts all expertise based on the mastery of the three worlds: the conceptual, the perceptual, the spiritual; as engaged via interaction, intuition, knowledge... on the course to immortality. Encoded, only to the impelled, inquisitive, mindful shall the sacred truth be revealed.

MEISTERS' GAMBLE: HEADS OR TAILS?

As a serpent dancing towards its tail – esoteric from exoteric – by way of the clock's tick, so are the atoms on the molecule of expertise.

Of all, five types of artists are named: architects, athletes, musicians, painters, storytellers. Two groups of magicians are named: alchemists, illusionists. The mystics are: occultists, psychics, sorcerers. Of philosophers, three are named: ethicists, metaphysicists, logicians. The named priests are: bishops, clerics, monks, shamans. The scientists: engineers, mathematicians, naturalists.
Thy wheel be done!
